Your initial mortgage consultation is obligation free. There may be a fee for our mortgage service of £395 though in some circumstances this may be waived. Being independent we also offer a "fee only" option which is typically 1% of the amount borrowed and any commission derived from the lender is returned to you. The precise amount will depend on your circumstances and mortgage loan amount, and will be discussed and agreed on before you make a mortgage application.

YOUR HOME MAY BE REPOSSESSED IF YOU DO NOT KEEP UP REPAYMENTS ON YOUR MORTGAGE.

Home Buyers' Guide

Steps to buying your home

1. We will go through your requirements and find the right mortgage for you

2. You will be given a decision in principle and a Key Facts Illustration which will detail everything you need to know

3. All relevant documentation will be required and credit searches will take place

4. The valuation will take place to check the value of the property

5. The lender will then underwrite the mortgage and give you a formal mortgage offer

6. The solicitor will then complete the pre-exchange of contracts including deciding on a completion date

7. The exchange of contracts will then take place, you are now legally bound to purchase the property

8. The deposit is then paid and your solicitor will finalise all mortgage arrangements

9. Land registry fees and stamp duty are paid if purchasing

10. You are then ready for completion, the funds are transferred and your purchase or remortgage are completed. At this stage the keys to your new home will be ready!

Home Buyers' Guide

Jargon Buster

APR: APR is the Annual Percentage Rate of the total charge for credit: this is the standard way of working out the true interest rate. All lenders are legally obliged to show the APR alongside quoted interest rates for each mortgage term, this enables you to accurately compare mortgages from different lenders to work out exactly how much you will repay on your loan each month.

Bank of England Base Rate: The Bank of England Base Rate determines how much other banks and building societies pay for the loans that they take out from the Bank of England. These base rates will in turn affect the interest rate paid for loans including the loan on your mortgage.

Capital Repayment: There are two ways of repaying a mortgage either by the capital repayment or interest only route. With a capital repayment mortgage, the capital and interest elements of the loan are paid off with each monthly instalment, with the balance reducing over the length of the loan term. During the capped rate period the interest rate can fall below the capped rate but will never rise above it.

Conveyancing: This is the legal process involved when buying or selling property. Most people use a solicitor or a licensed conveyancer when buying or selling a property because there's quite a lot of detailed work to do when transferring ownership of a property.

Disbursements: These are the fees your solicitor has to pay on your behalf (e.g. Stamp Duty, Land Registry fees and search fees) which will be added to your conveyancing bill from the solicitor on completion of the buying or selling of a property.

Discount Rate: A discounted rate mortgage offers you reduced repayments for a given term. This interest rate is discounted from the published lender standard variable rate, for an agreed period from the start of the mortgage. The standard rate can go up and down, but the discount amount remains fixed during the agreed period.

Equity: This is the positive difference between the value of your property and the amount of any outstanding loans secured against it. For example if your home was worth £300,000 and the mortgage on your property was £100,000 your equity would be £200,000.

Exchange of Contracts: This is the stage in England, Wales and N.Ireland when both the buyer and seller have legally committed themselves to the sale and purchase of a property and are legally bound to complete the transfer.

Fixed Rate: This is a mortgage rate where the interest rate is agreed at the start of the mortgage and will not change during the term of the fixed rate.

Freehold: When you have the freehold on a property this means that you solely own the property and the land it is situated on.

Interest Charges: These are the charges made on a loan, calculated as a percentage of the total amount that you borrowed on your mortgage.

Home Buyers' Guide

Interest Only: An interest-only loan is a loan in which, for a set term, the borrower pays only the interest on the principal balance, with the principal balance unchanged. If you do choose an interest only mortgage you are responsible for ensuring that you have sufficient funds available to repay your mortgage at the end of the term.

Leasehold: This is a system used mainly in England where you own the property for a set period before handing back ownership to the freeholder. When you hold a leasehold on a property, it remains the property of the freeholder. A leasehold will set out the details of obligations of the leaseholder for repairs and maintenance of the property.

Legal Fees: These are the fees charged by a solicitor or other qualified individual to carry out the legal work associated with buying a property.

Mortgage Rate: In a nutshell this is the interest rate on a mortgage loan.

Offer of Loan: This is the formal document approving the mortgage you have requested. This document, details the terms and conditions that will apply during the whole term of your mortgage.

Re-mortgaging: This is the term used when moving your mortgage from one lender to another without actually moving house. You may do this to save money. This might be possible by switching to another mortgage product with the same lender or by switching your mortgage to a competitor.

Searches: These are the enquiries made, usually by your solicitor, at the Land Registry, the Land Charges Register and Local Authorities to ensure there is nothing to cause concern about title to the land and the property you intend to buy.

Stamp Duty: Stamp Duty Land Tax (SDLT) is charged on land and property transactions in the UK. The tax is charged at different rates and has different thresholds for different types of property and different values of transaction.

- Up to £125,000 - nil
- £175,001 to £250,000 - 1% of the purchase price of the property
- £250,001 to £500,000 - 3% of the purchase price of the property
- More than £500,000 - 4% of the purchase price of the property

Title: This is the legal right to the ownership of your property

Tracker Mortgage: This is a variable rate mortgage where the interest rate is linked directly to the Bank of England Base Rate. Therefore, when the Base Rate change, the rate on your tracker mortgage, changes by the same amount.

Valuation: This is an independent assessment of the value of a property carried out by an approved surveyor and paid for by you the customer. All lenders insist that a valuation is carried out on a property. The valuation is used by the bank or building society to decide how much they are willing to lend you.

Variable Rate: This rate can go down as well as up during the course of your mortgage and is usually based on The Bank of England Base Rate.

Home Buyers' Guide

Moving Checklist

There are many things to think about when moving home. We have put together a helpful list of things to consider when moving.

6 weeks before your move

- Organise a removals company – remember to get several quotes, references and check the limits of their insurance.
- Book storage space if required.
- Confirm the date of your move, if you're renting, notify your landlord of your moving date.
- Notify all relevant companies of the change of your address – see our check list of companies to contact.
- Give notice for any media suppliers, most companies will need at least one month's notice. Ensure your home insurance cover starts on the day you move in.
- Start removing any possessions you no longer need. The Council will collect any unwanted bulky items.
- Think about any furniture or carpets that you might need and order these now.
- Clean out your cupboards and start packing anything you do not need until you move in.
- Book time off work around your move in date.

2 weeks before your move

- Finalise times and directions with your removal company.
- Arrange a time for your key collection.
- Keep all moving related documents in one folder for easy access.
- Organise all your important documents and keep together in one box.
- Stop any regular deliveries such as milk or newspapers.
- De-register from your doctor, dentist and optician if you're moving area.
- Arrange for any mail to be forwarded to your new address.
- If you have children or pets ensure someone can look after them on your move date.
- Notify your bank of any changes to direct debits and standing orders.

The day before your move

- Ensure that you have picked up your keys.
- Do one last check of your home to check that everything has been packed.
- Strip your beds and keep them together so you can use them on your first night.

The day of your move

- Make sure that you record the all utility metre readings when you move in
- Before leaving check that all windows are secure and water, gas and electricity supplies are switched off
- Charge your mobile phones.
- Defrost the freezer.
- Leave any manuals for central heating and any other appliances you are leaving.
- Keep a small toolkit separately to help you with anything that may need fixing at your new home.

Home Buyers' Guide
